PROFESSIONAL SUMMARY

Final-year Diploma student in Electrical Engineering with strong knowledge of power systems and transmission & distribution. Seeking an entry-level role to apply technical skills, gain practical experience, and contribute to organizational growth.

EDUCATIONS

RAGHUNATHPUR GOVERNMENT POLYTECHNIC Aug 2023 - Present
Diploma in Electrical Engineering *Percentage : 80.6*

TILURI KRIPAMOYEE HIGH SCHOOL Aug 2021 - Mar 2023
Higher Secondary Education *Percentage : 73.8*

TILURI KRIPAMOYEE HIGH SCHOOL Feb 2019 - Feb 2021
Secondary Education *Percentage : 69.14*

INTERNSHIP TRAINING

Vocational Training under Sr.SE/EL/North/Adra, S.E.Rly. 08/10/25 -22/10/25

- Engaged in vocational industrial training, including visits to railway substations and traction systems. Observed **electrical power distribution**, **traction operations**, and practical workings of **electrical installations**.

DREAMZVISION 20/07/25 - 20/08/25

Industrial Internship on Measurement & Calibration

- Completed industrial internship on **measurement** and **calibration techniques** involving testing, calibration procedures, and understanding accuracy verification of electrical instruments.

PROJECTS

Energy Efficient Automatic Street Lighting System Using LDR

Individual Project

- Designed and developed an **automatic street lighting system** using LDR to detect **ambient light intensity**.
- Implemented **automatic ON/OFF** switching, reducing **energy consumption** by up to **40%** during daytime.
- Enhanced energy efficiency and minimized manual intervention through **sensor-based automation**.

Mini Hydro Electric Power Plant

Group Project

- Designed a **mini hydroelectric power generation system** utilizing **water flow** to drive a turbine connected to a **DC generator** for renewable energy production.
- Integrated **turbine blades**, **shaft coupling**, and electrical output circuitry to implement efficient **energy conversion** and power transmission mechanisms.
- Acquired practical experience in **renewable energy systems**, power generation principles, and prototype development through hands-on hardware implementation.

LANGUAGES

Bengali, **English**, **Hindi**
